**Southern Louisiana Flooding  
1700 CDT – SEPTEMBER 1, 2016**

## Final Update

As a result of the August 2016 flooding due to heavy rains, twenty parishes have received major federal disaster declarations and more than 60,000 homes may have been impacted. Boil water advisories continue to affect approximately 1333 people. LDEQ and LDHH have not requested any FEMA assistance as they continue to take the lead for the environmental response.

- No further EPA field activities are expected. EPA personnel that were deployed to the incident are returning to Dallas.
- EPA will monitor ongoing State and FEMA activities and is ready to respond should assistance be requested.
- No additional updates are expected unless a significant incident occurs or a request is made.
- **FEMA JOINT FIELD OFFICE:** EPA continues to support FEMA from the REOC and has not received any additional assignments from FEMA.
- **PUBLIC WATER SUPPLY:** LDHH continues conducting drinking water system assessments. 16 public drinking water systems under boil water advisory impacting approximately 1333 people.

- **WASTEWATER TREATMENT PLANTS:** There are 661 WWTP in the declared parishes. LDEQ is implementing their Hurricane Disaster Plan. LDEQ will attempt to contact all potentially impacted WWTP via phone. If they don't make contact after two attempts, LDEQ will conduct a facility visit to that facility. To date, LDEQ has attempted to contact 617 of the 661 WWTP. LDEQ phone assessments and facility visits are continuing.

(617 attempted via phone, 44 not yet assessed/phoned)

- **BATON ROUGE LDEQ OFFICE:** EPA has been working with both LDEQ and the USCOE on tracking pertinent information regarding debris-related activities.
  - To date, there have been 30 flood-related NRC reports. Since the last reporting period, no NRC reports have been received related to Louisiana flood waters.
  - EPA has completed its work with LDEQ on NRC Report evaluations.
  - LDEQ continues to conduct Landfill Assessments to insure compliance with permit and emergency orders.
  - LDEQ continues conducting WWTP Assessment (Phone/Ground).
  - LDEQ's activities seemed to have normalized at this time.
  - EPA conducted assessments at two incidents at the request of LDEQ. One incident involved an automotive salvage yard in Paulina, LA and the other involved a pond on private property in Armani, LA. No issues were identified at either location and the results were reported to LDEQ.
- **LARD OIL SPILL, DENHAM SPRINGS, LA:** The RP continues to remove oil-stained vegetation and oil-saturated soils. This activity is on track to be completed Friday. EPA will continue to monitor this activity until complete. EPA has transitioned future cleanup actions to the State.
  - LDHH has agreed to lead the response and rehabilitation clearances related to indoor residential properties.
  - LDEQ has agreed to provide oversight of the RP's remediation activities.
